Terms and Conditions

1. Death Benefit

The minimum Death Benefit would be equal to 105% of total premiums paid (including Top-Up premiums) up to time of death, less applicable Partial Withdrawals. Death Benefit will be adjusted against outstanding loan along with interest and will be paid as an immediate payout in lump-sum.

2 Partial Withdrawals

Partial Withdrawals will have the following effect on the Basic and Top-Up Sum Assured: (1) Up to the age of 60 years, Basic and Top-Up Sum Assured payable on death is reduced to the extent of Partial Withdrawals made during the two years period preceding the date of death (the applicable partial withdrawals). (2) After the age of 60 years, Basic and Top-Up Sum Assured payable on death is reduced to the extent of all partial withdrawals made from age 58 years onwards (the applicable partial withdrawals)

Where any loan is outstanding against the policy, the amount of Partial Withdrawal should first be used to repay any outstanding loan (including interest), and the balance shall be paid.

3. Top-Up Premium

Top-Up Premiums will be invested in separate Top-Up Accounts, each with a lock-in of 5 years from the date of Top-Up. Each Top-Up will have a Top-Up Sum Assured of 125% or 110% of Top-Up amount depending on the age of the Life Insured at the time of payment of the Top-Up premium. Minimum Top-Up Premium is ₹ 10,000. No Top-Ups will be allowed during the last five years of the policy term. In the event of death, the higher of Top-Up Sum Assured or Fund Value in the Top-Up Account will be paid.

4. Settlement Option

This plan provides an option to receive the maturity proceeds as lump sum in one go, or part as a lump sum and part as installments or the whole amount as installments. Pre-selected periodic installments (yearly, half-yearly and quarterly only), can be taken for up to 5 years after maturity by informing the company within 3 months prior to maturity of the policy.

On selecting the Settlement Option, the number of units to be liquidated to meet each payment shall depend on the respective fund NAVs as on the date of each payment. Partial withdrawals and switches are not allowed during this period. During the settlement period, the investment risk in the investment portfolio is borne by the policyholder. If the Policyholder requests for pre-closure or the fund value is insufficient to pay the desired amount of installment during the settlement period (due to volatility in the market), then the balance Fund Value will be payable and the policy will be terminated. Life cover and other benefits are not provided during the settlement period. In case of death, the Fund Value shall be paid immediately as a lump sum.

5. Exit Option

The policy will be deemed to have been terminated if the policyholder submits a request for exit anytime after the fifth policy year. The benefit payable will be the Fund Value in the Main Account plus Top-Up Account less outstanding loan along with interest. The Main and Top-Up Accounts will have to be terminated together at one time.

In case of termination of policy during the lock-in period of 5 years:

Fund Value of the policy less outstanding loan amounts including interest (if any), will be credited to the Discontinued Policy Fund. This amount will grow at minimum interest rate of 3.50% per annum. The proceeds of the discontinued policy will be refunded only after completion of the lock-in period of five years except in case of death where it will be paid out immediately.

6. Net Asset Value

NAV of a fund is calculated and published in financial newspapers on a daily basis.

Net Asset Value (NAV) = (Market Value of investment held by the fund +/- the expenses incurred in the purchase/sale of assets + value of Current Assets + any accrued income net of fund management charges – value of Current Liabilities – Provisions) divided by Number of outstanding units in the Fund.

The basis used for unit pricing would be appropriation price or the expropriation price, whichever prevails on the valuation date. The Appropriation price shall be the basis used for determining unit price when the Company is required to purchase assets to allocate the units at the valuation date. The Expropriation price shall be the basis in a situation when the Company is required to sell assets to redeem the units at the valuation date.

Where premiums are paid by outstation cheques, the NAV of the clearance date or due date, whichever is later, will be used for allocation of the premium. Transaction requests (including renewal premiums by way of local cheques, demand draft, switches, etc.) received before the cutoff time will be allocated to the same day's NAV and the ones received after the cutoff time will be allocated to the next day's NAV. The current cutoff time is 3:00 p.m. which may vary from time to time as per IRDA guidelines.

7. Policy Loans

Policy Loans shall be granted against the policy anytime after the first policy year. The rate of interest shall be determined by the Company from time to time. Currently interest is 12.5% compounding half-yearly.

The minimum loan amount is ₹ 10,000. The maximum loan value is 40% of the Fund Value of the policy at that time (including any Top-Up Accounts).

The outstanding loan amount (including interest) shall be deducted from:

- Partial Withdrawals made after the lock-in period, or
- The Top-Up Premium payments made, or
- Benefits paid on maturity and death of the Life Insured, or
- The monies transferred to the Discontinued Policy Fund, or
- Any benefit payable on Policy

8. Loyalty Additions

The Loyalty Additions will be calculated as a percentage of the average Fund Value in the Main

Account in the three years preceding the date of benefit payment. These additions will be available at the end of the 10th policy year (for policy terms 10 and 15 years) and at the end of the 15th policy year (only for 15 year policy term). Loyalty Additions are not applicable for single premiums below ₹ 50,000. They are paid subject to policy being in force i.e., not in the discontinued state.

9. Nomination & Assignment

Nomination will be allowed under the plan as per Sec 39 of the Insurance Act, 1938. An Assignment of the policy may be made by an endorsement upon the policy itself or by a separate instrument signed in either case by the assignor specifically stating the fact of Assignment and duly attested. Such Assignment shall be operative as against the Company effective from the date that the Company receives a written notice of the Assignment and on confirmation of record of such Assignment. Partial assignment of policy is not allowed.

10. Maximum Charge Level

Kotak Life Insurance reserves its right to impose charges not beyond the level mentioned below (Subject to IRDA approval):

- The miscellaneous and switching charges may be increased to a maximum of ₹2,000.
- Mortality charges are guaranteed for the term of the policy.

11. Free Look Provision

The policyholder is offered 15 days free look period, from the date of receipt of the policy wherein the Policyholder may choose to return the policy within 15 days of receipt if he is not agreeable with any of the terms and conditions of the plan. Should he choose to return the policy, he/she shall be entitled to refund of the premium paid after adjustment for stamp duty and administration expenses and proportionate risk premium.

12. General Exclusion

In case the life insured commits suicide within one year of date of issue of the policy, the beneficiary would receive the Fund Value in the Main Account. With regard to Top-Up Premiums, in the event of the Life Insured committing suicide within one year of the date of payment of Top-Up Premium, the beneficiary would receive the Fund Value in respect of that Top-Up Account.

13. Service Tax and Education Cess

Service Tax and Education Cess shall be levied on Fund Management Charge and Mortality Charge as per the prevailing tax laws and/or any other laws. In case of any statutory levies, cess, duties etc., as may be levied by the Government of India from time to time, the Company reserves its right to recover such statutory charges from the policyholder(s) either by increasing the premium and / or by reducing the benefits payable under the plan.
