Life Cover continues, even if you stop paying Premium

In a 20, 25 or 30 year term, the policy offers 'Reduced Insurance Cover' from 16th Policy Year onwards in case the policyholder discontinues premium payment after paying premium for first 15 Policy years. The Reduced Insurance Cover is calculated as mentioned below:

Reduced Insurance Cover

= [(Policy Year** - 1)/(Policy Term) * 100% - 25%] * Base Sum Assured.

**Policy Year = Policy Year of Discontinuance of Premium.

Illustrative Example:

A customer takes 20 year policy term for a sum assured of Rs. 50 Lacs. He pays premium for 15 years and then stops paying premium in the 16th policy year.

Reduced Insurance Cover = {15 (Number of Premiums Paid) / 20 (Number of premiums payable over the policy term)} * 100% - 25% = 50%

Reduced Insurance Cover = 50% of base sum assured = 50% x 50 Lacs = 25 Lacs

The customer will continue to have a reduced cover for Rs. 25 Lacs from 16th policy year till the end of policy term (20 years), in case of discontinuation of premium after 15 policy years.

Tax Benefit

This term plan may entitle you to certain tax benefits on your premiums as well as on the benefits received under this policy.
