**Discontinued Policy Fund:** For the policies where the premiums are discontinued, the fund value will be moved to Discontinued Policy Fund which follows the Controlled Fund investment regulation of the IRDA. The investment return under the Discontinued Policy Fund will be declared at the end of every financial year and the minimum investment return under the discontinued policy fund shall be the minimum investment return declared by the IRDA from time to time. Currently the minimum investment return under the Discontinued Policy Fund is 3.50% p.a compounding annually.

Within a fund, if the target investment in one instrument is less than 100%, the remaining balance would be invested in the other mentioned instruments.

Whilst every attempt would be made to attain target levels prescribed above, it may not be possible to maintain the prescribed 'target' at all times owing to market volatility,

availability of market volumes and other related factors. The 'target' may be attained on a 'best effort' basis. However, the asset allocation will always fall within the asset allocation range mentioned in respect of each fund.

**Premium Redirection:** You may instruct us in writing to redirect all the future premiums under a policy in an alternative proportion to the various unit funds available. Redirection will not affect the allocation of premium(s) paid prior to the request.

**Switching Option:** Switching gives you the flexibility to alter the allocation of your investments among the funds to suit your changing investment needs. At any time during the policy term, you may instruct the Company, in writing, to switch some or all of the units from one unit linked fund to another. You are entitled to 52 free switches in any policy year. Unused free switches cannot be carried forward to a following year.

**Pay Top-up Premium(s):** You can use your windfall or some lump sum money to increase investments component. The minimum top-up is ₹ 5000. Payment of top-ups would result in increase in sum assured by 125% of the top up premium paid, in case the age of the life assured at the time of payment of top up premium is less than 45 years and 110% of the top up premium paid, in case the age of the life assured at the time of payment of top up premium is greater than or equal to 45 years. However the sum assured under the base plan and top up across all policies with Reliance Life Insurance Company shall not exceed ₹ 5 lac, if the age of the life assured at the time of payment of top up is less than 12 years. Top-up Premium is not allowed during the last five years of the policy term.

The total top-up premiums at all times should not exceed 25% of the total premiums paid till that time.

Top-up are accepted only when due basic premiums are paid up to date.

**Partial Withdrawals under the base plan:** You are allowed to make partial withdrawals after 5 years from the date of commencement of the policy or on attainment of age 18 by the life assured whichever is later.

On every partial withdrawal under the top up, there is a partial withdrawal charge of ₹ 100 and the partial withdrawal value will be paid after deducting the partial withdrawal charge.

#### **Foreclosure of the Policies in-force:**

For the policies in-force after five policy anniversaries, if at any point of time the fund value is less than the charges for the next month, the policy will be foreclosed by paying the fund value.

#### **Foreclosure of policies with loan:**

If at any time during the policy term, the outstanding loan and interest thereon exceeds 90% of the surrender value of the policy, the policy will be foreclosed by paying the surrender value after deduction of the outstanding loan and interest thereon.

#### **Systematic Transfer Plan (STP):**

STP helps in mitigating the risk arising from volatility in equity markets by averaging out your cost of purchase of units. STP allows policy holder to invest the portion of premium or top-up premium(s) meant for New Equity Fund initially into New Money Market Fund and then systematically transfer (i.e automatically switch) every week (not less than 1/4 part of the amount initially invested) into New Equity fund option. On the date of realization of the installment premium cheque, units will be allocated in the New Money Market fund for the portion of premium meant for New Equity Fund. On each of the next four Systematic Transfer dates (7th, 14th, 21st & 28th of every month) one-fourth of the STP units will be transferred to the equity fund automatically.

The first time policyholder effects STP on limited premiums or on top up no charge will be levied. Subsequently, a fixed charge of ₹ 100 will be levied each time the Systematic Transfer Plan Option is selected.

The selection or de selection of STP can take place only on the policy anniversary. There are no charges for cancellations of STP option. No further switches are allowed during STP period in respect of the fund amount under STP option. Once STP option is selected it can't be cancelled in respect of the amount already lying in the STP fund.

The terms and conditions as specified in the opted policy document would apply to the policy holder opting for the 'Exchange Option'. The new plan would be offered on the life of the policy holder and would be subject to terms and conditions of new contract.

If the policyholder is opting for transfer from other plan to "Reliance Life Insurance Pay Five Plan" under exchange option, the allocation charge in year of exchange will be reduced. The reduced initial allocation charge applicable in the year of exchange is 4.25%.

Regular allocation charges would apply to the balance of the policy term.

If the exchange option is used to pay top ups in, the allocation charge in the year exchange will be 1% of the top up amount.

During the settlement period, there will be no life cover. The policy will participate in the performance of units. There will not be any deductions towards mortality charges.

The Company will however continue to deduct administration charges by cancellation of units. The fund management charge will be priced in the unit value.

In the event of death of the Insured during settlement period the fund value as on the date of intimation of death at the office will be paid to the nominee.

---

**Value of Units:** The unit price of each Fund will be the unit value calculated on a daily basis.

Total Market Value of assets plus/less expenses incurred in the purchase/sale of assets plus Current Assets plus any accrued income net of fund management charges less Current Liabilities less Provision

**Unit Value =** \_\_\_\_\_

Total Number of units on issue (before any new units are allocated/ redeemed)

## Cut-off Timings

---

### a) Uniform cut-off timings for applicability of Net Asset Value:

The allotment of units to the policyholder should be done only after the receipt of premium proceeds as stated below:

### b) Allocations (premium allocations, switch in)

In case of new business, units shall be allocated on the day proposal is completed and results into a policy by adjustment of application money towards premium.

In the case of renewal premiums, the premium will be adjusted on the due date, whether or not it has been received in advance. (This assumes that the full stipulated premium is received on the due date.)

Renewal premiums received in advance will be kept in the suspense account and will not earn any returns until

the renewal premium due date on which the same will be applied to the unit fund.

- i) In respect of renewal premiums received up to 3.00 p.m. by the insurer along with a local cheque or a demand draft payable at par at the place where the premium is received, the closing NAV of the day on which premium is received shall be applicable.
- ii) In respect of renewal premiums received after 3.00 p.m. by the insurer along with a local cheque or a demand draft payable at par at the place where the premium is received, the closing NAV of the next business day shall be applicable.
- iii) In respect of renewal premiums received with outstation cheques/demand drafts at the place where the premium is received, the closing NAV of the day on which cheques/demand draft is realized shall be applicable.

Any amount less than the due stipulated limited premium payable stated in the contract will not be accepted.

**c) Redemptions:**

- i) In respect of valid applications received (e.g. surrender, maturity claim, switch out etc) up to 3.00 p.m. by the insurer, the same day's closing NAV shall be applicable.
- ii) In respect of valid applications received (e.g. surrender, maturity claim, switch etc) after 3.00 p.m. by the insurer, the closing NAV of the next business day shall be applicable.

**Fund Valuation:**

---

The value of the fund will be equal to the no of units multiplied by the Net Asset Value (NAV) of each unit in the fund.

The computation of NAV will be based on whether the Company is purchasing (appropriation price) or selling (expropriation price) the assets in order to meet the day to day transactions of unit allocations and unit redemptions i.e. the Company shall be required to sell/purchase the assets if unit redemptions/allocations exceed unit allocations/redemptions at the valuation date.

The Appropriation price shall apply in a situation when the company is required to purchase the assets to allocate the units at the valuation date. This shall be the amount of money that the company should put into the fund in respect of each unit it allocates in order to preserve the interests of the existing policyholders.

The Expropriation price shall apply in a situation when the company is required to sell assets to redeem the units at the valuation date. This shall be the amount of money that the company should take out of the fund in respect of each unit it cancels in order to preserve the interests of the continuing policyholders.

### **Computation of Net Asset Value (NAV):**

---

**When Appropriation price is applied:** The NAV for a particular fund shall be computed as: Market value of investment held by the fund plus the expenses incurred in the purchase of the assets plus the value of any current assets plus any accrued income net of fund management charges less the value of any current liabilities less provisions, if any. This gives the net asset value of the fund. Dividing by the number of units existing at the valuation date (before any new units are allocated), gives the unit price of the fund under consideration.

**When Expropriation price is applied:** The NAV for a particular fund shall be computed as: Market Value of investment held by the fund less the expenses incurred in the sale of the assets plus the value of any current assets plus any accrued income net of fund management charges less the value of any current liabilities less provisions, if any. This gives the net asset value of the fund. Dividing by the number of units existing at the valuation date (before any units are redeemed), gives the unit price of the fund under consideration.

In case the valuation day falls on a holiday, then the exercise will be done the following working day.

We reserve the right to value less frequently than daily in extreme circumstances, where the value of the assets may be too uncertain. In such circumstances we may defer valuation of assets until normality returns. Examples of such circumstances are:

- a) When one or more stocks exchanges which provide a basis for valuation for a substantial portion of the assets of the fund are closed otherwise than for ordinary holidays
- b) When, as a result of political, economic, monetary or any circumstances out of our control, the disposal of the assets of the unit fund are not reasonable or would not reasonably be practicable without being detrimental to the interests of the remaining unit holders.
- c) During periods of extreme volatility of markets during which surrenders and switches would, in our opinion, be detrimental to the interests of the existing unit holders of the fund.
- d) In the case of natural calamities, strikes, war, civil unrest, riots and bandhs.
- e) In the event of any force majeure or disaster that affects our normal functioning.
- f) If so directed by the IRDA.
